APPROVAL OF STATE ENGINEER

This is to certify that I have examined the foregoing application, and do hereby grant the same, subject to the following limitations and conditions.

This temporary permit to change the point of diversion of the waters of an underground source as heretofore granted under Permit 56906, Certificate 15749, is issued subject to the terms and conditions imposed in said Permit 56906, Certificate 15749, and with the understanding that no other rights on the source will be affected by the change proposed herein. The well shall be equipped with a 2-inch opening and a totalizing meter must be installed and maintained in the discharge pipeline near the point of diversion and accurate measurements must be kept of water placed to beneficial use. The totalizing meter must be installed before any use of the water begins or before the proof of completion of work is filed. If the well is flowing, a valve must be installed and maintained to prevent waste. This source is located within an area designated by the State Engineer pursuant to NRS 534.030. The State retains the right to regulate the use of the water herein granted at any and all times.

This temporary permit does not extend the permittee the right of ingress and egress on public, private or corporate lands.

The issuance of this temporary permit does not waive the requirements that the permit holder obtain other permits from State, Federal and local agencies.

The total combined duty of water under Permits 56906, Certificate 15749; 56907, Certificate 15540; 58436, Certificate 15541; 58437, Certificate 15188; and Temporary Permit 68445-T shall not exceed 350.8 acre-feet annually.

This temporary permit is issued pursuant to the provisions of NRS 533.345 Section 2 and will expire on **March 5, 2003** at which time all rights herein granted shall revert to the right being changed by this temporary permit.

(CONTINUED ON PAGE 3)

The amount of water to be appropriated shall be limited to the amount which can be applied to beneficial use, and not to exceed 0.25 cubic feet per second, but not to exceed 175.4 acre-feet annually.

Work must be prosecuted with reasonable diligence and be completed on or before:

Proof of completion of work shall be filed before:

Water must be placed to beneficial use on or before:

Proof of the application of water to beneficial use shall be filed on or before:

Map in support of proof of beneficial use shall be filed on or before:

## Item 15. Remarks

The water under this application is for irrigation of 140.0 acres. Desert Pearl Farms is leasing the land within the place of use from the Circle Bar "N" Ranch for approximately 2 years.

The water under base right Permit 30521 is partially supplemental to water rights under Permit 24013. The supplemental acreage will be proportionately reduced during the period that the lease is in effect, as shown in sketch on file at the Division of Water Resources under Permit 67045-T.

Use proof of beneficial use map on file at the Division of Water Resources under Permit 30521 to support the existing place of use and the proposed and existing point of diversion, and the attached sketch to support the proposed place of use.
